

April 1, 2025 speech to Virginia Legislature as they unlawfully 'select' judges.

Great day, everyone—PeaceMaker ALDO here!

America is at a crossroads: Will we reclaim justice, or stay trapped in judicial corruption—a system protecting powerful insiders through deception, law-fare, and tyranny? Today, innocent people suffer while the guilty remain untouchable. Courts have hijacked our grand juries, reducing citizen oversight to mere rubber stamps indicting "ham sandwiches", enabling corruption instead of fighting it.

A unified community grand jury has absolute power to restore accountability. Even a small group can indict corrupt judges, sheriffs, prosecutors, and officials, ending systemic injustice. This isn't theory—it's constitutional fact, affirmed by the Supreme Court's landmark 1992 Williams ruling that grand juries are independent institutions protecting citizens from oppressive government.

Real people suffer when grand jury oversight fails. Consider the tragic story of Rolin Hill, a mentally ill African-American Eagle Scout, brutally beaten and suffocated while restrained by sheriff's deputies in Virginia Beach. Officials concealed this homicide, falsely labeling his death a "medical emergency", to retain false power in the 2024 election. Only persistent public outcry and courageous whistle-blower revelations forced partial accountability. Sadly, Rolin's case is one of many injustices routinely hidden from public view. This corrupted judicial system also weaponizes law-fare against figures like President Trump, turning courts into instruments of political persecution, severely undermining our democracy and the rule of law.

Hope reigns eternal: As one nation under God, we live and act locally - "all politics is local" as we reclaim our natural, God-given rights county by county. We have the power and constitutional authority to reverse this corruption.

On March 12, 2025, twelve dedicated Virginia Beach citizens took bold action, demanding local and federal officials restore grand jury oversight back to We The People. Our call is now a nationwide movement, inviting every community across America's 3,143 counties and county equivalents to establish their own People's Grand Jury Oversight Committees.

The process is simple: visit RestoreGrandJuryRights.org, complete a three-page form, gather local signatures, formally deliver your demands to local and federal officials and schedule meetings to PEACEFULLY and LAWFULLY transition Oversight. When enough counties act, it creates an unstoppable wave of accountability, restoring America's promise of Life, Liberty, and the Pursuit of Happiness.

Justice isn't merely legal—it's a fundamental human right. No official, no institution, is above the law. Together, we can reclaim our constitutional power, renew our nation, and restore America's standing as a beacon of freedom, hope, and justice for all humanity.

The time to act is now—visit RestoreGrandJuryRights.org today, and join us in reclaiming justice for all, county by county, across our nation and beyond!
