

evil is the eternal fool

April 1, 2025 speech to VA Legislators unlawfully selecting judges.

Great day, every soul —PeaceMaker ALDO here!

America is at a crossroads: Will we reclaim justice, or remain trapped in judicial corruption—a system shielding insiders through deception and law-fare? The innocent suffer while the guilty go free. Courts have hijacked our grand juries, turning citizen oversight into rubber stamps.

This is "**Fraud Upon the Public by the Court**"—a betrayal of trust hiding corruption and silencing reform. It's not just fraud upon the court; it's fraud against us all.

A unified grand jury can restore accountability and indict corrupt officials. This is constitutional fact, affirmed by the Supreme Court's 1992 *Williams* ruling: grand juries are independent institutions protecting citizens from government abuse.

When oversight fails, people die. Rolin Hill, a mentally ill Eagle Scout, was killed by Virginia Beach sheriff's deputies. Officials called it a "medical emergency" to hide the truth and manipulate elections. Public pressure exposed part of the cover-up. This same system weaponizes courts against President Trump—and against We The People—undermining our Republic and democracy itself.

On March 12, 2025, twelve Virginia Beach citizens took bold action to ***demand the return of grand jury oversight to We The People. This movement is spreading,*** calling on all 3,143 counties to form People's Grand Jury Oversight Committees.

Hope is eternal - as one nation under God, we live and act locally. Reclaiming our God-given rights is simple: visit RestoreGrandJuryRights.org, fill out and print the online form, gather signatures, deliver your demands, and schedule meetings to PEACEFULLY and LAWFULLY transition oversight.
